

The screenshot displays a Jupyter Notebook environment. The top bar shows the file name 'Python_1-6.ipynb' and standard menu options (File, Edit, View, Insert, Runtime, Tools, Help). The left sidebar contains icons for file management and a list of open notebooks. The main area shows a code cell with the following Python code:

```
[2] import numpy as np
def cluster_titik(x1, x2, x3):
    A = np.array([3, 2, 4])
    B = np.array([-2, 5, 1])
    C = np.array([1, -3, -2])

    U = np.array([x1, x2, x3])

    dA = np.sqrt(np.sum((U - A) ** 2))
    dB = np.sqrt(np.sum((U - B) ** 2))
    dC = np.sqrt(np.sum((U - C) ** 2))

    print(f"Jarak ke A: {dA:.4f}")
    print(f"Jarak ke B: {dB:.4f}")
    print(f"Jarak ke C: {dC:.4f}")

    jarak_min = min(dA, dB, dC)
    cluster_terpilih = []

    if dA == jarak_min:
        cluster_terpilih.append("Cluster A")
    if dB == jarak_min:
        cluster_terpilih.append("Cluster B")
    if dC == jarak_min:
        cluster_terpilih.append("Cluster C")

    output_cluster = " dan ".join(cluster_terpilih)
    print(f"Titik termasuk {output_cluster}\n")

#Contoh pemanggilan fungsi
cluster_titik(4, 3, 7)
cluster_titik(3, -7, -1)
cluster_titik(0.5, 3.5, 2.5)
```

The output of the code cell is as follows:

```
--- Jarak ke A: 3.3166
Jarak ke B: 8.7178
Jarak ke C: 11.2250
Titik termasuk Cluster A

Jarak ke A: 10.2956
Jarak ke B: 13.1529
Jarak ke C: 4.5826
Titik termasuk Cluster C

Jarak ke A: 3.2767
Jarak ke B: 3.2767
Jarak ke C: 7.9215
Titik termasuk Cluster A dan Cluster B
```
